

From the Desk of President.

Education is a will to experience the excellences and Education of learning.

The roles of education are not only to empower student with academic learning but to push them to in calculation of values and morals.

We as a management always look forward to channelize the positive energy of the staff and students towards building their talent, skill and ability. We are always their to build a holistic approach and have student centric focus.

We always make sure that every student of our school should turn into responsible self reliant citizen of our country.

We try to Identify students ability as a individual and divert its focus towards it. The parents are the strength for their children in providing the future of child. Their consistent support to child and cooperative nature toward school make empower us to do more and more.

Thanking to all the Staff, the Parents and the Students for their co-operation and support.

VINAYAKA GURUKUL CBSE STATEMENT FROM PRINCIPAL

'Knowledge is Virtue' – Socrates

According to him, knowledge is the mean to attain good life.

As it is said education begins at home our only focus is to provide a support under to our children and shape them to become whole and responsible individual.

Today education needs different experiment and experience of implementing to challenge the future we are trying to equip them with skills as needed from time to time with material success.

Our school is reaching new heights and excellent performance in co-curriculum activity like Dance, Drama, Environment Programmes. These interschool competition allow us to showcase our school magnifying performance. Such participation make student to build competitive cooperative and collaborative qualities.

We are proud to announce our school always tries to lift its standard and upgrade its academic environment.
